CAREER OBJECTIVES

Aspiring to become a skilled Full Stack Developer with a deep interest in Artificial Intelligence, I am passionate about building intelligent, user-centric solutions that combine the power of modern web development and AI technologies. With a curious mind, continuous learning attitude, and a desire to solve real-world problems, I aim to contribute to the tech world by creating systems that not only function but think and evolve.

EDUCATIONAL BACKGROUND   2023-Present

🎓 **BSC (HONS) OF COMPUTING**
Itahari International College
London Metropolitan University
Sundar, Dulari, Sunsari

🎓 **SLC**   **2019 – 2020**
Kantipur Secondary School
NEB
Biratnagar, Morang

🎓 **SEE**   **2018**
Multiple Creative Academy
NEB
Inaruwa-5, Sunsari

TECHNICAL SKILLS

- Web Development: Proficient in HTML, CSS, JavaScript, and TypeScript; experience with React.js fundamentals and Next.js framework; working knowledge of Django.
- Programming Languages: Python, Java.
- Artificial Intelligence & Machine Learning: Familiarity with Python libraries such as TensorFlow, Keras, Scikit-learn, and basic understanding of neural networks and data preprocessing.
- Database Management: Experienced with MySQL and SQLite.
- Version Control: Git, GitHub.
- UI/UX Design: Skilled in Figma and Canva for wireframing and graphic design.
- Design: Graphic design, wireframing, and prototyping.
- Office Tools: Microsoft Word, Excel, PowerPoint.

SOFT SKILLS

- Problem-Solving
- Leadership & Teamwork
- Communication
- Adaptability
- Time Management
- Critical Thinking
- Creativity & Innovation

PROJECT

HEALTHMATE – SYMPTOM CHECKING WEBSITE   2025

- Build with Next.js, HTML, CSS, JS, React
- A web-based platform designed to help users check symptoms and receive basic health guidance. The goal is to make healthcare information more accessible through a simple and user-friendly interface.

HOTEL OPERATION WEBSITE – HOTEL MANAGEMENT SYSTEM   2025

- Built with Java, HTML, CSS, MySQL
- Leading a team to build a hotel management system with secure login, efficient data handling, and a user-friendly interface. The project focuses on streamlining hotel operations and improving user experience.

INVENTORY MANAGEMENT SYSTEM   2024

- Technology: Python
- Developed a system to track inventory with CRUD features and automatic receipt generation for sales and purchases

TRAINING AND CERTIFICATIONS

AWS- Certificate
